

# 『2011 THUMS European Users Meeting』

## Invitation and Organization

JSOL is delighted to announce the 2011 THUMS European Users Meeting. THUMS, the Total Human Model for Safety for use with LS-DYNA (R) is being rapidly adopted by users worldwide. We invite you to join us and share in THUMS technical information.

We invite Mr Yasuki, THUMS development leader in Toyota Motor Corporation, to give a lecture about THUMS development progress and verification analysis. JSOL will announce information about distribution and sales of version 4. In a later sessions, users will present examples of analysis using THUMS.  
We look forward to seeing you there.

■ **Objective** Explanation of THUMS and sales, especially the latest version 4 and its application.
